## Clarifications of some provisions of Regulations on electronic trading for the sale of pre-investment assets

In connection with the incoming requests for clarification of certain provisions of the documentation on electronic bidding for the sale of a pre-investment asset, hereby we explain the following:

1. The documents (the notice) about the prequalification of the investor specified in paragraph 7.4. of *Regulations on electronic trading for the sale of pre-investment assets* are to be submitted by the participant to the ETP operator at the time of submitting the application for participation in the electronic trading before 15:00, 05.07.2019.
2. According to clause 7.5 of *Regulations on electronic trading for the sale of pre-investment assets* “The absence of an investor's notice of the prequalification of the investor or indicating therein that the investor did not pass the prequalification of the investor leads the investor to refuse to accredit on the ETP as a participant in electronic trading”, namely, the refusal to register for participation in electronic trading for the sale of a pre-investment asset.
3. According to clause 7.6. of *Regulations on electronic trading for the sale of pre-investment assets* “The investor is obliged to accredit on the ETP as a bidder no later than thirty calendar days before the date of the electronic bidding”, while paying a deposit to participate in the electronic bidding for the sale of the pre-investment asset and providing the notice on prequalification is not required.
